1 - DRP refers to Distribution Reinvestment Plan which was effective from the distribution paid in February 1987.

2 - The tax advantaged components of income distributions were irrelevant prior to the introduction of capital gains tax in September 1985.

3 - Due to a change in income tax legislation, from 1 July 2001, distributions that relate to non-taxable building allowances are treated as "tax-deferred" therefore, distributions since July 2001 have not included a "tax-free" component.

**Note - For the periods where the distribution includes a discount capital gain amount (marked with an (\*)), the tax deferred amount has been calculated on the basis that the member is an individual or a trust eligible for the 50% CGT discount. In other circumstances the tax deferred amount may be different.**

The taxation legislation in relation to capital gains is very complex and heavily dependent on individual circumstances. As a result we recommend that you should consult your tax advisor or other professional advisor.
